DOCKET E CCF ORIGINAL

Dear Mr. Hundt:

I read your letter to Ann Landis regarding TV programming. I was heartened to learn that the FCC is considering requiring broadcasters to show at least three hours of educational programs for children per week.

I hope the FCC makes this a reality. We need to make sure children can benefit from TV viewing. Thank you for what you are doing at the FCC to achieve this.

Very truly yours,  
Ruth Levine

REFERENCE CHAIRMAN HUNDT'S LETTER TO ANN LANDERS

Thank you for your informative letter to Ann Landers.

I wish to record my position favoring required children's television programs by the commercial networks.

For years I have been appalled at the violence and explicit sex that our children are exposed to without any concern for them. I certainly applaud your efforts to bring about a reasonable solution to this problem.

It is too late for my children, but in the interest of salvaging future generations something much be done. Thank you.

Sincerely

  
Jon Kelly  
Ich Diem

Dear Mr. Hundt,

DOCKET FILE COPY ORIGINAL

I feel that we are cheating our children by not having more quality childrens programs on every TV chanel. I suppose it will have to be a mandate from the "dreaded government regulators" or it will never happen. The type of program so popular now that the charactors are also sold in your friendly neighborhood store make mothers and fathers teach children that all adds are not to be trusted or buy all this junk. The wonderful promice of TV has been wasted and our children are the ones that are suffering from this waste.

Please do what you can to help parents raise their children - they need all the help they can get from this wonderful medium.

Thank You. Sincerely,

*Fran Moore*

The Honorable Reed Hundt  
The Federal Communications Commission  
1919 M Street, NW  
Washington, DC 20555

Dear Chairman Hundt;

It is with great concern that I write this letter to you. I believe there is a direct correlation between the programming children watch on their televisions and their perceptions of the world. The increase in violent acts by children is, in my opinion, evidence of this phenomenon. It is my hope that you will help our children by setting standards of at least one hour a day of specifically-designed educational and information programming on all TV stations.

I also think it is important to redefine the FCC definition of "educational and informational" programming. Cartoons such as Flintstones and the Jetsons should not be considered educational and informational programming. Only appropriate programming scheduled after 6:00 a.m. or before 10:00 p.m. should count toward the core requirements.

You have the power to help change the future of this country. The children of our country need your help. They deserve a safe and healthy world. Thank you for your consideration.

Sincerely,

  
Sarah Williamson
